NORTH SYDNEY. N. S., Dec. 2—North Sydney prospectors, lured by tales of rich river silt in the streams of Labrador, are preparing for a gold rich into the barren north as soon as the spring opens. The area in which the alleged discovery of gold has been made fulls under the Jurisdiction of the Newfoundiand government, and already over 700 claims have been lifed with the mines department at St. John's, N. F.

Stag bay in Stag harbor is the objective of the gold seekers, a remote district far north of Battle harbor, Labrador, and three days' steaming from this port. The passage is perilous to ships, Stag bay itself being so shallow that vessels are compelled to anchor ten miles offshore. Passengers and freight are landed in small boats. Few but wandering Eskimos ever visit the place.

According to prospectors the discovery was made in several rivers emptying into Stag bay. Among these are the Pummalit; river, Big brook and Black Duck creek, all wide, shallow streams with gravelly bottom. Big brook has been staled for a distance of 32 miles.

The first discovery was made a year.

Meritt, assistant Indian commissioner, says the 240,917 Indians so in trease of approximately 13.500 over the number ten years ago.

The increased has been brought about the ansistant commissioner says, by improved housing conditions and increased nospital and medical facilities. There are 78 hospitals at the indian reservations and schools, and there are employed in the Indian service 150 physicians, 81 nurses and 70 field matrons, the latter visiting the homes of Indians to improve living conditions.

"We are educating in our Indian schools of the country 60,000 indian children."

The first discovery was made a year ago by a party that had gone into the north in quest of timber claims. The members of the expedition on their return to civilization quietly recorded their claims at St. John's, but the news of gold spread, and soon afterwards two other parties went to Stag bay and staked claims. Under the mining laws of Newfoundiand each claim may include 320 acres. During claim may include 329 acres. During the past few weeks, the gold strike has become generally known, and now hundreds of adventurers are awaiting the apring months to journey north

COACH ROCKNE'S NOTRE DAME ELEVEN ONE OF GREATEST OF THE YEAR'S TEAMS

BY BILLY EVANS.

FITTSBURG. Pa., Dec. 2—After watching Notre Dame heat the strong Carnegle Tech eleven I want to go on record as saying that I haven't seen a better looking football team this year than Coach Knute Rockne's aggregation.

Le making such an assertion I am team's trainer take care of a score lime confidence in its great power. It seemed when a certain number or yards were needed some player was for a strenuous battle, yet I didn't always able to turn in that many or more.

Every one appeared happy and goodnatured and it seemed any one able to smile was doing it.

In making such an assertion 1 am taking into consideration the fact that 1 have seen a majority of the best teams in the country in action, among them being Wisconsin Chicago, Michigan, Iowa and Ohio State in the west, and Yale, Princeton, Harvard, Lafay, ette and Dartmouth in the cast.

Prior to the Carnegis Tech contest, I had a chat with Coach Rockne. He was really a bit worried about the outcome of the game as Tech had held W. & J. to a 7 to 7 tle and had been beaten by Yale in a heart-breaking game by the score of 13 to 7. In reply to my query as to how things were going, he said:

HAD HARD SCHEDULE.

"Fine, so far, but I am a bit worried about the condition of my boys for today's game. You know we have had a pretty hard schedule, Indiana, Purdue, West Point, Buffer. Georgia Tech and now it's Carnegie. I have a great young team that has not yet reached its possibilities, but the grueiling schedule that we have played is beginning to tell."

SPIRIT WAS IMPRESSIVE.

There was a snap to Notre Dame's them for a touchdown on the fourth down with four yards to gain. Most teams would have been content to try a goal from field. Notre Dame gambled and was rewarded with two touchdowns.

After the game Coach Wally Steften of Carnegie Tech, former University of Chicago star, remarked: "The Notre Dame eleven is a wonderful team. It is far and away the opposing player or players to miss them entirely.

In Notre Dame I saw a team that was well coached in the fundamentals. Time and again, by some little action, they would make it apparent the team was composed of players able to think. The team as a whole had sub-
